Our Products

- 3-5 – Di Iodosalicylic Acid
- Ammonium Iodide
- Cadmium Iodide
- Calcium Iodate
- Clioquinol
- Copper Iodide
- Ethyl Iodide
- Ethylenediamine Dihydroiodide
- Hydriodic Acid 57%
- Iodic Acid
- Iodine
- Iodine Monochloride
- Iodoquinol
- Lithium Iodide
- Methyl Iodide
- N-Iodo Succinimide
- Periodic Acid
- Potassium Iodate
- Potassium Iodide
- Potassium Metaper Iodate
- Povidone Iodine
- Selenium Dioxide
- Sodium Metaper Iodate
- Sodium Iodate
- Sodium Iodide
- Sodium Selenite
- Tetra Butyl Ammonium Iodide
- Tri Methyl Sulphoxonium Iodide

Quality Policy

Quality is not an act, it's a habit which is developed by years of experience.

The quality policy regarding products and production is summarized as follows.

Products Specifications

The product specifications are composed largely on the requirements of the customers and are mainly derived from the specifications stipulated by international manufacturers.

Product Analysis

We have evolved our own methods of analysis of all the products and in general referred to International Standard Books of Chemical Analysis.

Production Process

All the products have been developed in-house over the last 2 decades. Our manufacturing practices and facilities are comparable to the best in industry.

Consistent Quality: a habit at Samrat Pharmachem

Company Culture

Samrat believes in building an organization around the people and not around building and machinery.

Each individual is an independent, self-sufficient, highly skilled unit progressing individually. We consider each team member as a family member who gets full cooperation, motivation and opportunity to grow which in turn equips the company to serve the customers in a better way.

Life has many lessons to teach us and we have learnt that corporate life to which we offer golden time of our life is really an extension of our family life

Our definition of family begins with principle in the centre and we draw an ever expanding circle including employees, suppliers, customers, bankers, shareholders, our business associates and consultants.

We cherish each member of our family and we really need each one of them.

We love to be at the service of mankind.

We seriously try to practice to do unto others as we would have them do unto us. The virtues of quality, principles, truthfulness, trustworthiness and being kind and considerate about others is an unwritten rule for Samrat.

Vision and Philosophy

Samrat uses indigenous technologies to improve the quality & productivity and also to reduce its operating time and manufacturing cost. The quality of our products is continuously improved by innovations in production process and testing methods.

Samrat continues to explore and implement measures that will help in conservation and saving of time, money and energy.

Samrat is keeping a very environmental friendly attitude. The company disposes all its solids, liquids and gas wastages in a manner which does not harm nature and which is legally acceptable and permissible.

Samrat is committed to safe and healthy working conditions for all its employees. It also works with them to improve, train, develop and enhance each individual's skills and capabilities and thereby better individual work and growth.

Samrat realises its corporate social responsibility and has a vision to improve education, health, environment & welfare of all living beings.

Samrat is committed to follow good corporate governance practices and improve upon them year after year for shareholders benefit and creation of wealth for the long terms interest of all its stakeholders.

Company Mission

We at Samrat Pharmachem Limited think of ourselves as a different kind of company, doing our part to make the world a better place. This pursuit is realised through an unwavering commitment to leadership in everything we do.

We don't just see to the needs of our customers, we also strive endlessly to surpass them. We don't just produce excellent products; we also work for continuous improvement. We don't just talk about quality, we also endorse a quality management system, maintain ISO certification in our plants and ensure our efforts meets or exceeds the most stringent quality standards.

And we do this all with respect for the beauty and fragility of the world and the well-being of its inhabitants, ensuring that our business makes a positive contribution to the environment, the communities we serve, our customers and our employees.
